From Prof. W. H. Morse, M. D., F. R. S. Sc. Westfield, N. J.

My Dear (Always) True Cook. Your Honest Catalog has come again. Every year adds to my faith in Cook's seeds. Those Vegetable Peaches, Domestic Coffee, and Cinnamon Vines were more wonderful, more pleasing, and more fascinating than ever.

The Cinnamon Vine was the marvel of the city; and the peaches and coffee not only gave large crops but attracted the attention of the whole section. All other seeds did well.

The Perfection Parsnips, which came to my table for dinner to-day deserve especial mention. In more than a quarter-century's experience with experimental gardens, nothing in the way of seeds has ever pleased me more, and if it will do you any good you can say that Cook, and his seeds are guaranteed by me.

Fraternally and Sincerely Yours, W. H. Morse, Agri' Chemist.

NEW EXTRA EARLY BEET.

I am glad to offer this new variety of a one of almost inestimable value. How many of my Gardener friends believe that there is anywhere in existence, a nice, smooth, garden beet of deep red color, which will produce roots of suitable size for market 10 DAYS in advance of the old early sorts?

Well friends this variety does that very thing; I was incredulous until I planted the seeds and tested them side by side, and watching their growth saw a finely formed root develop on every plant of this new variety before other early kinds began to bottom.

The flesh is delicate, rich, and sugary; very fine grained. It is in every way an ideal table Beet. Young plants make splendid greens.

Pkt. 10c. 3 for 25c.

White Plume, Self Bleaching Celery.

THE EARLIEST VARIETY.

This is the best of the so called Self Bleaching varieties, as it needs but little banking up. Its eating qualities are equal to the best of the older sorts being tender and crisp, solid, and of a pleasing nutty flavor, while its white feather-like foliage places it ahead of all others as a table ornament. More largely grown than any other. If any have failed to grow fine celery, they should try this. Pkt. 10 cts.

It Pays Well to Get up a Club for Our Seeds.

Strawberry Tomato, or "Golden Husk."

ALSO KNOWN AS WINTER CHERRY AND GARDEN FIG.

Every garden in America should have a liberal supply of this remarkable fruit. It is one of my specialties. Probably no fruit ever grown makes such delightful, rich and handsome canned fruit and preserves. They make delicious pies, and superb fruit-cake when dried in sugar like raisins. Very easy to grow, and ripen in 80 days.

They yield abundantly in all parts of the U. S. and Canada. Fruit is golden-yellow, size of big cherries, fairly loading the branches down. You have no idea how delicious they are until you try them.

Many call them equal to strawberries to eat out of hand. If left in their husks or pods and stored in a cool place they keep fresh and sweet all winter.

DOES IT PAY TO SMOKE?

No It Never Does. Consider the Slocum fire where over 1,000 innocents met their horrible death—the Asch building, where 142 girls burned—the countless thousands more burned in other fires—the millions of dollars in property destroyed—all caused by smokers. Consider the enormous money cost of this filthy habit, health undermined, life shortened, even death and the mad house claiming many victims. It also leads to drink and other evils.

Smokers are disgusting to their best friends—compelling even women and children to inhale their vile and sickening fumes. No satisfaction that tobacco gives, makes up for even half what it takes away. Then why not stop? You can if you try hard enough. It will pay. Begin now. Firmly resolve never to touch the filthy stuff again—and may you have the courage to win.

BOYS don't begin so bad a habit. Keep clean and pure and worthy of the human life God has given you. Your Friend, **A. T. COOK.**

Took 14 FIRST PRIZES. Who can beat it?

Mr. A. T. Cook—I showed FOURTEEN different kind of vegetables at our County Fair—grown from your seeds—and took FOURTEEN FIRST PRIZES. I am so well pleased that I want to plant 15 acres with them this season. **A. L. Gilbert, Ill.**

From the Nebraska Experiment Station.

Mr. A. T. Cook. My Dear Sir:—Your Potato Seeds gave very interesting results. I had thirteen different types—white, purple, pink, yellow, etc., 2 to 50 in a hill. Size from half an inch to three and a half inches in diameter. I look forward with interest to the growing of these tubers next year. **Geo. W. Hood, Prof. of Hort.**

Over 12 Bushels Potatoes From a Dollar Order.

Mr. A. T. Cook:—I planted your Early Six Weeks Potatoes first of May, and harvested 761 lbs. of as fine large potatoes as I have ever seen. They certainly are a wonder, and their table qualities too good to describe. **C. E. Andrews, Hillsboro Co., N. H.**

STRAWBERRIES FOR 5 MONTHS. "NEW EVERBEARING."

Earliest, Hardest, Most Delicious, Most Productive of All.

THESE NEW Everbearing Strawberries are so wonderful, so extraordinary—the plain truth about them almost surpasses belief. They stand alone, the greatest of plant marvels. Planters everywhere concede this. They cannot praise them enough.

Grow THESE and you can have bushels of delicious berries for 5 whole months—strawberries for breakfast, dinner, and supper—Strawberry shortcake galore, and lots of fruit and plants to sell at fancy prices.

SPRING SET PLANTS will be loaded with fine berries within 3 months and bear enormously from July till way in November. Indeed I have picked ripe berries late as Dec. 8, and many green ones and blossoms still on. This after many hard freezes proves their amazing hardness.

I HAVE a large Photo of one plant taken Oct. 15 that had 40 big ripe berries on it, 69 green ones and lots of bloom. Hundreds and hundreds more were just about as good, and remember these very plants had been bearing continually since July. Need I say more? I have tried many of the so called "everbearing strawberries" but all are worthless in comparison with this splendid variety.

PRICE. EXTRA STRONG PLANTS pure and true 12 for 90 cts. 25 for \$1.50. 50 for \$2.50. 100 for \$4.00. All carefully packed, boxed, postpaid and insured. Price includes Premiums as offered. If no Prem. is wanted, deduct one third. Order at once—will send plants in early spring.

Cannot be too highly extolled as a Winter Squash; it boiles smooth and dry, is of very rich quality, and keeps as solid as a rock. It is more popular with private growers than any other variety.

GIANT BOHEMIAN HORSE RADISH.

Grow more Horse Radish! Its a big money maker. The local supply is far below the demand. This condition should not exist, because it is a profitable crop. One grower realized \$1,100.00 off of one acre.

Its large, white roots may be raised in any soil, and when planted in rows may be harvested like potatoes. The quality of this Horse Radish is far superior to the old variety in strength and piquency. Prepare the ground as you would for potatoes; stick each root upright into bottom of furrow 12 inches apart, and 3 inches deep, or drop roots

and cover as potatoes. Sets or roots will then make an enormous growth. 12 for 60c, 100 for \$3.00

Cook's Golden Giant Sugar Corn. A Corn of Superb Quality. The Very Best for Small Gardens

COOK'S GOLDEN GIANT SUGAR CORN is a dwarf growing early variety. The plant attains a height of four feet, usually bearing two or more ears to the stalk. These are compactly filled with kernels which are so deliciously sweet, tender and milky that some people claim that "it is the sweetest corn on earth." It is better than Golden Bantam and ears are very much larger. A very desirable variety for home or market gardeners. The most valuable garden acquisition of recent years—the finest type of Sugar Corn ever produced. When once grown or eaten no other corn will satisfy. It has a superlative merit and wherever grown is called "a perfect corn." It is much earlier than the Golden Bantam—ears more than twice the size and fully three times as productive as that famous variety. Its quality is most delicious—rich and sugary—almost melting in your mouth, what more need be said? This corn is so far ahead of all others there is simply no comparison. It is the crowning triumph of an expert from careful crossing and selection. Market gardeners can control any market with this matchless corn, and no other can bring him so much money. Address, COOK SEED CO., Seed Specialists, WATERFORD, N. Y.

Colorado Preserving Citron.

This is quite distinct and far superior to the ordinary citron, the seeds being a light green color. It is immensely productive; one vine produced 25 fine melons, weighing from 10 to 30 lbs. each. The flesh is very firm and solid with few seeds, and makes beautiful, clear, transparent preserves of surpassingly fine flavor. All should plant this citron for market and home use. It is a grand seller and will make you money. Pkt 6 cts.

Early Snowball Cauliflower.

The earliest, the surest header, the best and most profitable of all cauliflowers. No other variety compare with it. Snowball cauliflower is the standard everywhere for superb quality with all market and private gardeners. It is a very compact grower, and is absolutely certain to form a good sized head when the conditions are right; is good the entire season, and is rapidly driving out the latter sorts for fall use. Cauliflowers are easily raised, and every family should grow a supply.

My seed is American grown and very choice. Packet 15 cts. 2 for 25 cts. 8 for \$1.00.

WHITE CHINESE WINTER RADISH.

A magnificent, new Celestial variety, of enormous size and exquisite flavor. By far the best and most tender for late fall and winter use. The flesh is always crisp, mild and juicy—very refreshing. These giant Radishes grow from 10 to 15 inches long and 4 to 5 inches in diameter.

The skin pure paper-white—very handsome. Flesh always crisp, mild and juicy. Easily grown and an immense yielder. Winter Radishes deserve more attention. They are a great luxury in winter, and always sell at good prices.

Plant about July 1st, and pull late, and store in a cellar in boxes of moist earth. Large Pkt. 10 cts. 3 for 25 cts.

New Palmetto Asparagus—True Stock.

DECIDEDLY THE BEST IN THE WORLD.

This new variety is the finest ever cultivated. After years of trial in all sections, it is pronounced by all to be far in advance of all others, being much earlier—far better flavor and double the size. Indeed this variety is so superior that gardeners are plowing out their old sorts and planting with Palmetto. It is remarkably tender, rich and buttery when cooked. No other can compare.

Every family should have a supply of this very healthful and delicious vegetable. My seed is pure and true. If well cared for will produce larger and finer asparagus in TWO years than other varieties at five. Beware of spurious seed. Don't go to the expense and bother of buying plants when you can get such a quick and easy grower as this.

Large packet with full cultural directions, 10 cts. 3 for 25 cts. 12 for \$1.00. 12 packets will produce \$30.00 to \$30.00 worth of plants. Both Asparagus and Asp. Plants are SURE money makers, and sell quickly at big prices. Plant a lot of it for few things pay better.

From the Editor of American Garden. TRULY A GIANT AS PARAGUS. A bunch of about 50 shoots of Palmetto Asparagus exhibited by a Phila. Gardener, beats anything ever heard of. It weighed 31 lbs.—the growth of only 3 days.

A. Winship, Hillsboro Co., N. H. writes:—Your Palmetto Asparagus and Pop Corn are both truly wonderful. I have planted your seeds seven years and find them the best of all. Your packets are twice as large as any other, and you always send so many extras.

P. Bliss, Lake Co. Mich. writes:—Mr. A. T. Cook, Your Melons are magnificent; I grew hundreds of luscious ones. The Banana's were 23 inches long and 6 inches in diameter. I want your seeds again, and all our nabors who saw our garden want them also. Please send several catalogs.

cents each for his entire crop, as they were eagerly sought after in the Philadelphia markets on account of their great oddity of shape and appearance. They look and smell like overgrown bananas. ALL THE CHOICEST VARIETIES AND COLORS.

I am glad to offer all the latest improved large-flowering strains of this famous garden annual. Phlox are well adapted to beds and massing, making a dazzling show thru the whole season. They are easy to grow. Their extreme beauty, long duration of bloom, and the unequalled richness of their many colors render them favorites everywhere.

Surely no one will miss planting these lovely flowers. I offer a superfine mixture. Pkt. 10c. 3 for 25c.

Please Get up Clubs.

NEW EARLY ICICLE RADISH.

This Photo is from samples direct from my garden. No radish on earth can compare with it in earliness, beauty, and superb quality. I sold more packets of Icicle Radishes last year than anything else in my entire list. What more need be said?

Ne Plus Ultra of Radishes.

Its value is beyond all estimate. To plant it once means to grow it always. Anyone can make a pocket of money growing these radishes for sale.

Packet 10 cts. 3 for 25c. 12 for \$1.

Please tell your friends of my great bargains.

MARKET GARDENER'S BEET.

Undoubtedly one of the best novelties ever offered, and it receives much praise from my customers. One sowing only is needed for summer and winter use. Deep red, enormous size—6 to 8 inches in diameter—and just splendid quality. Pkt. 5c. 6 for 25 cts.

A New PREMIUM.

Two Pair Fine Lace Curtains Free for a \$4.00 Order All Prepaid.

Coffee Seed Makes Hens Lay.

"Your Coffee makes the finest chicken feed in the world. They just shell out the eggs." Wilfred Brown, Wayne Co., Mich.

LARGE RED WETHERSFIELD ONION.

A time honored variety. Immense crops are annually grown. It is everywhere a large yielder of fine,

handsome, large onions of excellent quality for family use. It also finds a ready sale in all markets. All my seed is unsurpassed, and is grown from best selected solid bulbs—pure and true.

Beware of cheap onion seed that is often raised from scallions and unsalable rubbish for there is much of this kind afloat. Remember in seeds "like produces like"—and nothing in the world is so dear as cheap seeds.

Packet 5 cts. 6 for 25c. 24 for \$1.00.

Boston Marrow Squash

A very old and an extra good variety of Squash, either for early fall or winter use. It is bright orange color, and of extra good quality for pies and canning purposes. The flesh is tender, fine grained and of excellent flavor. Vines very productive.

Boston Marrow is good for both home use and shipping to distant markets. For a variety you should plant a patch of this excellent squash. Packet 10 cts. 3 for 25 cts.

Be Sure and Try Cook's New Golden Cream Muskmelon, Then You Will Always Plant It.

White Rice Pop Corn

White Rice Pop Corn is perhaps the most widely grown of all Pop Corn. Four ears to a stalk is not a rare occurrence. The white grains are sharply pointed, but when popped are very full. Great demand for this splendid corn. Large packet 10 cts. 3 for 25 cts. Plant a good big patch for your own use and market.

COUNTRY GENTLEMAN SUGAR CORN. The Most Delicious Ever Grown.

This improved variety is the finest of all sweet corn for home use. None other is so delicious. The ears are good size, 8 or 9 inches long, and produced in great abundance. Many stalks bear 3 to 4, and sometimes 5 or 6 plump ears. Its long, milky kernels are full of sweetness.

Richest Flavor, Deepest Grain, Smallest Cob, Greatest Yielder.

The moment you taste this luscious, tender corn you will be a convert to it, for its flavor will delight an epicure. The kernels fairly melt in your mouth. It retains its delicious tenderness for a long time. A very strong grower; season medium. I recommend it especially for private gardens, and to those having the choicest retail trade. Selected strain, large Pkt. 10 cts. 3 for 25c. 12 for \$1.00.

POWELL'S PROLIFIC POLE BEANS

A Distinct Creation—Greatest Garden Wonder

Proved by Experiment Stations and Thousands of Planters in all Sections to be the Most Wonderful Bean Ever Grown, of Superb Quality and More Than Three Times as Productive as Other Beans.

POWELL'S PROLIFIC—My own introduction—stand alone. Nothing compares with them. Marvelous runners—everlasting bearers—continuing until frost. Their enormous vines are loaded down with the most delicious Beans you ever tasted. You can pick them by handfuls. Their amazing productiveness almost surpasses belief.

PROF. C. A. McCUE, HORT. DELA. COLLEGE EXPERIMENT STATION REPORTS—"Yield test of Cook's Powell Beans was 17,696 pounds per acre—294 Bushels. (Three and a half times as many as next best variety which produced 84 bushels.)"

Powell's are a stringless green-pod snap bean of delightful, distinct flavor, rich, tender and buttery—almost melting in your mouth. Equally good as a dried bean for winter. Grow them to eat, and grow them to sell. Many sell a full dollar's worth from every pole. Only think of it. What a big "money-maker"?

SOME LETTERS—I COULD FILL 40 PAGES

From Prof. H. Flannery, Bean Expert of Ohio

"Dear Mr. Cook:—I have grown every bean known, and find your Powell's beat all others in luxurious growth, delicious quality—either green or dried—and in amazing productiveness. I would give \$10.00 a packet rather than be without them"

Received \$5 From 4 Hills—Used Many Too

There is much money in Powell Beans. I sold \$5 worth from 4 hills (2 plants in a hill) besides all I could use in my family. They are wonderful, and continue bearing until frost. J. P. Smith, Va.

Over One Bushel of Beans From Every Hill

For 15 years I have grown beans. None can compare with Powell's. I planted 18 hills—picked over a bushel from each—and sold \$9.98 worth for cash. Samuel Waddy, Henry Co., Tenn.

Cannot Over-Recommend This Money Maker

From 16 hills I sold \$7.65 worth and ate of them all the season. You cannot over-recommend this money-maker. I had to prop up nearly every pole. A. J. Packard, York Co., Maine.

PRICE. Genuine Powell's, every bean my own growing—and every bean will grow,—in Sealed Packets only,—40 Beans for 15 cts.; 4 Packets, 50 cts.; 10 for \$1.00; 100, \$7.50—All post-paid. Order now. Agents wanted.

Plant early as weather will admit, in rich soil 4 feet apart, 4 beans in a hill. Set stout poles, and connect them with strong twine for vines to spread out on. Address,

CONCERNING POTATO SEED

From the Waterford Times, Waterford,
N. Y., Sept. 19, 1917.

The following article, taken from the Poughkeepsie Eagle-News, is from the pen of A. T. Cook, the widely known Seedsman of Hyde Park, Dutchess county, one of the most reliable men in the seed business, and therefore can be accepted as fully trustworthy:

Editor Eagle-News:

Your Quaker Hill correspondent speaks of Potato Seed Balls being found in that vicinity—and that a "Scientist" has offered "\$25.00 for a single ball."

This "\$25.00 for a ball" canard has been going the rounds of the press for several years and of course has no foundation in fact.

Last year I harvested the seed of over seven bushels of balls. If I could have sold them for \$25.00 each, they would have brought me a tidy sum. The prospect is I will have many more than seven bushels this season.

Forty or fifty years ago, seed-balls were

plentiful in every potato field. Of late years—few if any are found in most sections. Thousands of people have never seen one.

I have made a specialty of Hybridized Potato Seeds for the past 35 years and supply many of the leading seedsmen in the United States and Canada.

Potato seeds are curious and wonderful. The seed produces an amazing diversity of potatoes. It may not be generally known that every seed will bring a different variety—each one more or less distinct from each other. Such is the case. The product of a packet of seeds will be a vast number of colors, shapes and sizes. There will be white, yellow, pink, red, blue, purple and black potatoes. There will be shades innumerable. Extraordinary freaks sometimes develop—such as a potato having vines that run on the ground like a cucumber vine, the joints taking root and producing potatoes at every joint, etc.

I am now growing a promising seedling that produces very long tubers—similar to a long sweet potato. No one would recognize it as being an “Irish” variety. I believe it to be of great value.

The potato never “sports.” It is only

from the seed that new varieties are produced. If all potatoes failed to produce balls, potatoes would deteriorate and eventually run out and vanish from the earth. It would be hard to estimate the damage the loss of this esculent would be to the world.

Potato seeds grow as readily as tomato seeds. Plant them early in the spring and when they are 3 or 4 inches high, transplant two feet apart.

The Seeds are exceedingly prolific. It is not an uncommon thing for one seed to produce 50 to 150 perfect potatoes the first season.

The growing of potatoes from the seed is most interesting and the possibility of producing a variety superior to all others—and more valuable than a gold mine—is fascinating in the extreme.

A. T. COOK, Seedsman,
Hyde Park, N. Y.

Aug. 28, 1917.

We have known Mr. Cook for over half a century. He has been one of the most persistent experimenters in producing new varieties of vegetables and flowers, and in improving the old. And the

improvement of the potato has been one of his pet enterprises.

A good many years ago when the late John Palmer was in the vegetable business Mr. Cook sent us several new varieties of potatoes which were given to Mr. Palmer. Prominent among the best of all for flavor and cooking qualities was the black potato mentioned above by Mr. Cook. Every reader of this paper who may desire to experiment with the potato seeds will find Mr. Cook the right man to deal with. Write him for particulars. He will gladly give you very valuable information.

 I can supply true Hybridized Potato Seeds—the rarest and most wonderful of seeds—for only 15 cents per Packet; four Packets for 50 cts.; ten for \$1 postpaid.

May you be successful and reap a golden harvest, is the sincere wish of Your Friend,

**A. T. COOK, Seed Specialist,
Hyde Park, N. Y.**

Early White Peachblow Potato.

We believe the new Early White Peachblow Potato to be the Most Wonderful Potato that has been introduced in years. The Greatest Money-Maker for everyone. The Finest, the Prettiest, Smoothest and Best Flavored Early Potato for Home or Market.

No potato that we have ever grown is more proof against Drought and Blight or Second Growth. It has never failed to produce a large crop of extra early potatoes. The plant is dwarf and compact, maturing in advance of the Early Ohio, Early Rose or Early Freeman. It never has had the blight. The tubers are round, slightly flattened. White skin, free from disease. Flesh, white and mealy; no cores or black specks. Quality unsurpassed. One point alone which makes it valuable is that it never has taken second growth, and resists drought better than any other potato that we have ever grown. North, South, East and West, Extra Early Peachblow always came off with flying colors. We again advise early orders, for while our stock is more than usual, the demand for Early White Peachblow is simply astonishing.

We have never known of a new variety scoring such a phenomenal success in every way. Everything that we said about this grand new potato has been fully corroborated by hundreds of farmers and village gardeners that have tested it and proven its great worth. They praise it in the most satisfactory manner and prove that all the nice things we said were not an exaggeration, but honest facts.

The above 19 acre field produced 3807 barrels, equal to 550 bushels to the acre and was fertilized with American Agricultural Chemical Co. Fertilizers.

These Potatoes are worth their weight in gold to any person who wishes to grow an extra nice eating and very productive Potato. The U. S. Dept. of Agriculture says: Don't continue to plant your old, run out seed, but obtain some New Seed and you will be repaid a hundred per cent. And we would say to you, plant some of our Northern grown Seed Potatoes and you will grow a bumper crop of the best Potatoes you ever had.

Grown in the North, hardy, smooth, sure crop and are heavy yielders.

Big money in raising Potatoes. This variety never fails to make a big crop.

Special Seed Collection free with every order. Don't miss it.

One thing that impressed our customers more than anything else we said, was the assertion we made, that it was far superior in quality to the old-fashioned Peachblow, the potato so dear to the hearts of the farmers and gardeners of twenty-five or thirty years ago. We know you want to make more money on your potato crop. We know you want to raise a quality of potatoes that are good to eat, that are much superior to the wet, soggy sort that you have been growing for some time from run-out seed, then you should plant Early Peachblow.

Try the Early White Peachblow. Plant freely of this great variety this season. We only wish we had more space to tell you all the good things about this great potato, but by planting some yourself you will gain first hand knowledge of this great money-making potato. It is 3 to 5 days earlier than any other early potato. It will out-yield all others. It is superior in quality to any other potato grown to our knowledge.

As to quality, they are the equal to its namesake, the old fashioned Peachblow. Do you remember how Mother used to cook them with their jackets on? How nice and mealy they were and how they would melt in your mouth. My! but they were delicious, but they were a late potato and ran out quite awhile ago, but the EARLY WHITE PEACHBLOW is equal in quality and has the advantage of being early and a great yielder and an absolutely sure cropper. We guarantee that you will make no mistake in planting a good supply.

We cut good size pieces from large potatoes for the hills. Every one is sure to grow and to yield bountifully. Send us your order at once and mention the date when you want the potatoes sent to you all charges prepaid.

In appearance it is similar to the old fashioned Peachblow. An oblong shape, some nearly round, smooth skin and free from rust or scab. In color it is white, shallow eyes and is equal to its namesake when at its best; but has the advantage of being earlier, which is certainly a great advantage, for in many localities early potatoes do so much better than late ones. So you see our new potato is the coming potato and you should not fail to order a good supply of this new seed because we honestly believe you will be more than pleased and another year will plant no other kind. We will ship to you by Parcel Post all charges prepaid at the following prices:

Seed for 40 Large Hills & Seed Collection \$1.	Seed for 220 Large Hills & Seed Collection \$4.
" 100 " " " \$2.	" 280 " " " \$5.
" 160 " " " \$3.	" 1000 " " " \$15.

The above prices include your choice of Premiums in Catalog. If none are wanted, you can deduct one-third.
